- Temephos 190

INDEX

- Temperature, water
 acceptable levels **220**
Legionella growth/survival 100, 234–235
Naegleria survival 272, 273
- Terbuthylazine (TBA) **440–442**
 analysis 161
 guideline value 191, 441, 492
 treatment achievability 170, 441
- Testing kits **109**, 158
- 3,3',4,4'-Tetrachloroazobenzene 430
- Tetrachloroethene **442–443**
 analysis 160, 442
 guideline value 188, 442, 492
 treatment achievability 168, 442
- Thermotolerant coliform bacteria 142, 143, 282, **284–285**
- THMs *see* Trihalomethanes
- Thorium-228 202
- Thorium-230 202
- Thorium-232 202
- Tin, inorganic 193, **388–389**, 490
- Titration, volumetric 158
- Tolerable daily intake (TDI) 149, **150**
 allocation to drinking-water 151–152
 alternative approaches 152–154
 calculation of guideline values 149–150, 152
 uncertainty factors 150–151
- Toluene **443–444**
 acceptability 218
 analysis 160, 443
 guideline value 188, 443, 492
 treatment achievability 168, 443
- Total coliform bacteria **282–284**
